Anyone determined to have a physical or mental impairment that substantially limits their ability to ski, ride, access mountain facilities, or participate in snow sports without adaptive equipment, instruction, support services, or other accommodations is eligible for an Adaptive Pass.

For visual impairments, guests who are legally blind (20/200 in the good eye) to totally blind qualify, as defined by the ADA. Please note that physician diagnosis is required. Wearing corrective lenses does not alone qualify you as disabled by the ADA standards.
